

NATHAN HALL

Court Planning Consultant

nhall@ncsc.org

Work Experience

At the National Center Mr. Hall provides management consulting and technical assistance to state and local courts on their facility planning projects.

Mr. Hall has experience with a wide variety of project and building types ranging from larger scale urban design and master planning to complete architectural services for commercial, institutional and residential buildings. His work on previous projects includes programming, zoning and building code analysis, site planning, building needs assessments, historic building assessments, schematic design, design development, contract bidding and negotiation, construction documents and construction administration.

Education

Master of Architecture, University of Colorado School of Architecture and Planning, 2003

Bachelor of Arts, Major in History, Lewis and Clark College, Portland, Oregon, 1998
