

MARY BETH KIRVEN

Court Management Consultant
mkirven@ncsc.dni.us

Work Experience

Mary Beth's expertise focuses on researching and assessing the needs of those state courts that are planning to build or renovate their facilities. This process includes evaluation and identification of court functional space needs, collection and analysis of historical caseload and population data, and the preparation of comprehensive reports to present an assessment and analysis of the courts' needs.

Education

J.D., University of Denver, American Jurisprudence Award, Chief Justice Sutton International Law Award Honorable Mention, 1994

M.S., University of Wyoming, Microbiology, 1984

B.S., Colorado State University, Microbiology, 1979
