

**CONSORTIUM FOR STATE COURT INTERPRETER CERTIFICATION
PRACTICE EXAMINATION KIT – ALL ENGLISH ORDER FORM**

The All English Practice Examination Kit includes the following:

- Instruction Manual
- CD with audio files containing the practice exam in English.
- Hard copies of the test scripts

Background

The Kit is designed to provide purchasers with a step-by-step process to increase their understanding of four basic things:

- *What a real Consortium performance examination looks like*, including the “scoring units.” Practicing with the kit before taking an operational examination will give the individual an opportunity to take a practice examination and score it in much the same way that trained raters do for the actual examinations.
- *The scoring methodology used by the Consortium to score oral examinations* in a fair and consistent way. Purchasers will create their own scoring dictionaries and in the process, learn how to research words and phrases like the trained raters do and make decisions about what should be acceptable or not and why.
- *Self-assessment of one’s own level of skill and readiness to take a Consortium exam.* The purchaser will have the opportunity to take the practice examination in a way that is similar to the actual test environment and to fairly and objectively assess his or her current level of skill. Candidates should be able to recognize strengths, identify weaknesses, and learn what additional training or practice is needed to improve performance.

If one completes all of the assignments in a step-by-step manner and in the order provided, users should gain a better understanding of what a real exam is like. More importantly, users should ***gain a more realistic view of their own level of performance.***
