NOTE: All state trial courts with grand total jurisdiction are listed in the table, regardless of whether caseload data are available. Blank spaces in the table indicate that a particular calculation, such as the total state caseload, is not appropriate. State total "incoming cases per 100,000 population" may not equal the sum of the rates for the individual courts due to rounding.

NA = Data are not available.

JURISDICTION CODES:

G = General Jurisdiction
L = Limited Jurisdiction

SUPPORT/CUSTODY CODES:

- 1 = The court does not have jurisdiction over support/custody cases
- 2 = Support/custody caseload data are not available
- 3 = Only contested support/custody cases and all UIFSA cases (where the court has jurisdiction) are counted separately from marriage dissolution cases
- 4 = Both contested and uncontested support/custody cases and UIFSA cases (where the court has jurisdiction) are counted separately from marriage dissolution cases
- 5 = Support/custody cases are counted as a proceeding of the marriage dissolution and, thus, a marriage dissolution that involves support/ custody matters is counted as one case
- 6 = Support/custody cases are counted as a proceeding of the marriage dissolution, but UIFSA cases are counted separately
- ** = Nondissolution support/custody cases are also counted separately
- *** = Court has only interstate support jurisdiction

PARKING CODES:

- 1 = Parking data are unavailable
- 2 = Court does not have parking jurisdiction
- 3 = Only contested parking cases are included
- 4 = Both contested and uncontested parking cases are included
- 5 = Parking cases are handled administratively
- 6 = Uncontested parking cases are handled administratively; contested parking cases are handled by the court

TABLE 2: Reported Grand Total State Trial Court Caseloads, 2007. (continued)

CRIMINAL UNIT OF COUNT CODES:

M = Missing data
I = Data element is inapplicable
A = Single defendant—single charge
B = Single defendant—single incident (unlimited number of charges)
C = Single defendant—single incident (limited number of charges)
D = Single defendant—more than one incident
E = Single defendant—content varies with prosecutor
F = One/more defendants—single charge
G = One/more defendants—single incident (unlimited number of charges)
Criminal Unit of Count Codes (continued):
H = One/more defendants—single incident (limited number of charges)
J = One/more defendants—more than one incident
K = One/more defendants—content varies with prosecutor
L = Inconsistent during reporting year
Z = Both the defendant and charge components vary within the state

QUALIFYING FOOTNOTES:

The absence of a qualifying footnote indicates that data are complete.

† Florida courts do not include reopened dispositions within their count of outgoing cases; thus, outgoing cases are underreported, and the calculation of outgoing cases/incoming cases reflects a misleadingly low clearance rate. Data for New Hampshire's court is 2006 data. Data for Pennsylvania courts are preliminary 2007 data. Data for South Dakota Circuit Court includes data from the Magistrate Court.

* See the qualifying footnote for each court within the state. Each footnote has an effect on the state's total.

NOTE: All state trial courts with civil jurisdiction are listed in the table, regardless of whether caseload data are available. Blank spaces in the table indicate that a particular calculation, such as the total state caseload, is not appropriate. State total "incoming cases per 100,000 population" may not equal the sum of the rates for the individual courts due to rounding.

NA = Data are not available

JURISDICTION CODES:

G = General Jurisdiction

L = Limited Jurisdiction

TABLE 3: Reported Total State Trial Court Civil Caseloads, 2007. (continued)

UNIT OF COUNT CODE:

A = Petition or complaint

POINT OF FILING CODES:

A = At filing of petition or complaint

B = When placed on calendar

C = At filing of notice or issue

QUALIFYING FOOTNOTES:

The absence of a qualifying footnote indicates that data are complete.

† Florida courts do not include reopened dispositions within their count of outgoing cases; thus, outgoing cases are underreported, and the calculation of outgoing cases/incoming cases reflects a misleadingly low clearance rate. Data for New Hampshire courts is 2006 data. Data for Pennsylvania courts are preliminary 2007 data. Data for South Dakota Circuit Court includes data from the Magistrate Court.

* See the qualifying footnote for each court within the state. Each footnote has an effect on the state's total.

A: The following courts' data are incomplete:

Alaska—Superior Court—Total civil incoming data do not include non-domestic relations restraining order cases.
—District Court—Total civil incoming and outgoing data do not include non-domestic relations restraining order cases.

NOTE: All state trial courts with domestic relations jurisdiction are listed in the table regardless of whether caseload data are available. Blank spaces in the table indicate that a particular calculation, such as the total state caseload, is not appropriate. State total "incoming cases per 100,000 population" may not equal the sum of the rates for the individual courts due to rounding.

NA = Data are not available

JURISDICTION CODES:

G = General Jurisdiction

L = Limited Jurisdiction

SUPPORT/CUSTODY CODES:

(a) Method of count codes:

1 = The court does not have jurisdiction over support/custody cases

2 = Support/custody caseload data are not available

3 = Only contested support/custody cases and all UIFSA cases (where the court has jurisdiction) are counted separately from marriage dissolution cases

4 = Both contested and uncontested support/custody cases and UIFSA cases (where the court has jurisdiction) are counted separately from marriage dissolution cases

5 = Support/custody cases are counted as a proceeding of the marriage dissolution and, thus, a marriage dissolution that involves support/custody matters is counted as one case

6 = Support/custody cases are counted as a proceeding of the marriage dissolution, but UIFSA cases are counted separately

** Nondissolution support/custody cases are also counted separately.

*** The court has only UIFSA jurisdiction.

(b) Decree change counted as:

NC = Not counted/collected

NF = Counted as a new filing

R = Counted as a reopened case

I = Inapplicable

TABLE 5: Reported Total State Trial Court Domestic, Relations Caseloads, 2007. (continued)

QUALIFYING FOOTNOTES:

The absence of a qualifying footnote indicates that data are complete.

† Florida courts do not include reopened dispositions within their count of outgoing cases; thus, outgoing cases are underreported, and the calculation of outgoing cases/incoming cases reflects a misleadingly low clearance rate. Data for New Hampshire courts is 2006 data. Data for Pennsylvania courts is preliminary 2007 data.

* See the qualifying footnote for each court within the state. Each footnote has an effect on the state's total.

A: The following courts' data are incomplete:

Alaska—Superior Court—Total domestic relations incoming and outgoing data do not include civil protection/restraining order cases. Total domestic relations outgoing data also do not include adoption cases.
California—Superior Court—Total domestic relations incoming and outgoing data do not include partial year data from several courts.

NOTE: All state trial courts with criminal jurisdiction are listed in the table regardless of whether caseload data are available. Blank spaces in the table indicate that a particular calculation, such as the total state caseload, is not appropriate. State total "incoming cases per 100,000 population" may not equal the sum of the rates for the individual courts due to rounding.

NA = Data are not available.

JURISDICTION CODES:

G = General Jurisdiction
L = Limited Jurisdiction

UNIT OF COUNT CODES:

M = Missing data
I = Data element is inapplicable
A = Single defendant—single charge
B = Single defendant—single incident (unlimited number of charges)
C = Single defendant—single incident (limited number of charges)
D = Single defendant—more than one incident
E = Single defendant—content varies with prosecutor
F = One/more defendants—single charge
G = One/more defendants—single incident (unlimited number of charges)

TABLE 6: Reported Total State Trial Court Criminal Caseloads, 2007. (continued)

H = One/more defendants—single incident (limited number of charges)
J = One/more defendants—more than one incident
K = One/more defendants—content varies with prosecutor
L = Inconsistent during reporting year
Z = Both the defendant and charge components vary within the state

POINT OF FILING CODES:

M = Missing data
I = Data element is inapplicable
A = At the filing of the information/indictment
B = At the filing of the complaint
C = When defendant enters plea/initial appearance
D = When docketed
E = At issuance of warrant
F = At filing of information/complaint
G = Varies

QUALIFYING FOOTNOTES:

The absence of a qualifying footnote indicates that data are complete.

† Florida courts do not include reopened dispositions within their count of outgoing cases; thus, outgoing cases are underreported, and the calculation of outgoing cases/incoming cases reflects a misleadingly low clearance rate. Data for New Hampshire courts is 2006 data. Data for Pennsylvania courts is preliminary 2007 data. Data for South Dakota Circuit Court includes data from the Magistrate Court.

* See the qualifying footnote for each court within the state. Each footnote has an effect on the state's total.

TABLE 8: Reported Total State Trial Court Juvenile Caseloads, 2007. (continued)

NOTE: All state trial courts with juvenile jurisdiction are listed in the table regardless of whether caseload data are available. Blank spaces in the table indicate that a particular calculation, such as the total state caseload, is not appropriate. State total "incoming cases per 100,000 population" may not equal the sum of the rates for the individual courts due to rounding.

NA = Data are not available.

JURISDICTION CODES:

G = General Jurisdiction

L = Limited Jurisdiction

POINT OF FILING CODES:

M = Missing data

I = Data element is inapplicable

A = Filing of complaint

B = At initial hearing (intake)

C = Filing of petition

E = Issuance of warrant

F = At referral

G = Varies

QUALIFYING FOOTNOTES:

The absence of a qualifying footnote indicates that data are complete.

† Florida courts do not include reopened dispositions within their count of outgoing cases; thus, outgoing cases are underreported, and the calculation of outgoing cases/incoming cases reflects a misleadingly low clearance rate. Data for all New Hampshire courts are for 2006. Data for Pennsylvania courts are preliminary 2007 data.

* See the qualifying footnote for each court within the state. Each footnote has an effect on the state's total.

A: The following courts' data are incomplete:

California—Superior Court—Total juvenile incoming and outgoing data do not include partial year data from several courts.

Delaware—Family Court—Total juvenile incoming and outgoing data do not include most dependency and any status offense/petition cases.

Florida—Circuit Court—Total juvenile outgoing data do not include termination of parental rights cases.

Kentucky—Family Court—Total juvenile incoming and outgoing data do not include termination of parental rights cases.

Maine—District Court—Total juvenile incoming data do not include some status offense/petition cases.

Mississippi—Chancery Court—Total juvenile incoming data do not include most dependency cases. —County Court—Total juvenile incoming data do not include delinquency and most dependency cases.

Missouri—Circuit Court—Total juvenile incoming and outgoing data do not include all juvenile cases.

Nevada—District Court—Total juvenile incoming and outgoing data do not include complete data from two courts. Outgoing data also do not include termination of parental rights cases.

Tennessee—Juvenile Court— Total juvenile outgoing data do not include juvenile cases from 1 county.

Texas—District Court—Total juvenile incoming and outgoing data do not include dependency cases.

—County-level Court—Total juvenile incoming and outgoing data do not include dependency cases and data from 18 reports .

B: The following courts' data are overinclusive:

Colorado—District, Denver Juvenile and Denver Probate Court—Total juvenile outgoing data include adoption, paternity, some visitation (non-divorce), and some support (non-divorce) cases.

Indiana—Superior, Circuit and Probate Courts—Total juvenile incoming and outgoing data include custody (non-divorce), some support (non-divorce) and some visitation (non-divorce) cases.

Louisiana—District Court—Total juvenile incoming data include some non criminal traffic violation cases.

North Dakota—District Court—Total juvenile outgoing data include some traffic cases.

C: The following courts' data are incomplete and overinclusive:

South Carolina—Family Court—Total juvenile incoming and outgoing data include traffic/other violation cases, but do not include dependency cases.

NOTE: Parking violations are defined as part of the traffic/other violations caseload. However, states and courts within a state differ in the extent to which parking violations are processed through the courts. A code opposite the name of each court indicates the manner in which parking cases are reported by the court. Qualifying footnotes in Table 9 do not repeat the information provided by the code, and, thus, refer only to the status of the statistics on non-criminal traffic (infraction) violations, parking violations, and ordinance violations. All state trial courts with traffic/other violation jurisdiction are listed in the table regardless of whether caseload data are available. Blank spaces in the table indicate that a particular calculation, such as the total state caseload, is not appropriate. State total "incoming cases per 100,000 population" may not equal the sum of the rates for the individual courts due to rounding.

NA = Data are not available.

JURISDICTION CODES:

G = General Jurisdiction
L = Limited Jurisdiction

PARKING CODES:

- 1 = Parking data are unavailable
- 2 = Court does not have parking jurisdiction
- 3 = Only contested parking cases are included
- 4 = Both contested and uncontested parking cases are included
- 5 = Parking cases are handled administratively
- 6 = Uncontested parking cases are handled administratively; contested parking cases are handled by the court

QUALIFYING FOOTNOTES:

The absence of a qualifying footnote indicates that data are complete.

† Florida courts do not include reopened dispositions within their count of outgoing cases; thus, outgoing cases are underreported, and the calculation of outgoing cases/incoming cases reflects a misleadingly low clearance rate. Data for New Hampshire courts are for 2006. Data for Pennsylvania courts are preliminary for 2007.

* See the qualifying footnote for each court within the state. Each footnote has an effect on the state's total.
